

Material Safety Data Sheet

TC-1607 PART A

Date of Preparation: 02/24/2003

Revision: 02/24/2003

Section 1 - Chemical Product and Company Identification

Product Name: TC-1607 PART A

Product Class: Epoxy resin

Chemical Type: Bisphenol A Diglycidyl ether resin

Manufacturer: BJB Enterprises, Inc., 14791 Franklin Avenue, Tustin, CA 92780, Phone (714) 734-8450, Fax (714) 734-8929, (M-Th: 8-4:30, F: 7:30-4), Emergency Phone: Chemtrec (800) 424-9300 or (703) 527-3887

Section 2 - Composition / Information on Ingredients

Ingredient Name	CASRN
1. Epoxy Phenol Novolac Resin	28064-14-4

Trace Impurities: N/A

Ingredient	OSHA PEL		ACGIH TLV		NIOSH REL		NIOSH IDLH
	TWA	STEL	TWA	STEL	TWA	STEL	
#1	NE	NE	NE	NE	NE	NE	NE

Section 3 - Hazards Identification

☆☆☆☆☆ Emergency Overview ☆☆☆☆☆

Appearance: Viscous amber liquid; Odor: Slight aromatic; Avoid skin contact. Avoid breathing vapors. May cause eye and skin irritation. Harmful if inhaled. Use in well-ventilated areas. Decomposition and combustion products may be hazardous.

†Sec. 8

Potential Health Effects

Primary Entry Routes: Eye and skin contact; inhalation of vapors, accidental ingestion.

Inhalation/Ingestion: Not likely; Shortness of breath and irritation to sinuses may occur/May cause gastric irritation.

Eye: May cause moderate irritation.

Skin: May cause irritation, sensitization, and possible allergic response.

Medical Conditions Aggravated by Long-Term Exposure: Prior sensitization to epoxide containing products.

Section 4 - First Aid Measures

Inhalation: Not likely. Remove to fresh air environment. If breathing is labored administer oxygen. Contact a physician.

Ingestion: If swallowed, call a physician immediately. Remove stomach contents by gastric suction or induce vomiting only as directed by medical personnel. Never give anything by mouth to an unconscious person.

Eye Contact: Flush eyes with clean, lukewarm water for 30 minutes. Obtain medical attention if irritation develops.

Skin Contact: Remove contaminated clothing and wash affected areas well with soap and water. It is not recommended to remove resin from skin with solvents. Solvents only increase contact and dry skin. Launder contaminated clothing before use.

Note to Physicians: Treat any ill effects symptomatically.

Section 5 - Fire-Fighting Measures

Flash Point/Method: >392°F (>200°C) Seta Flash-Closed cup

Extinguishing Media: Carbon dioxide, dry chemicals, foam, or water fog.

Flammability Classification: Combustible liquid CLASS IIIB

Unusual Fire or Explosion Hazards: When mixed with strong acids (organic/inorganic), strong oxidizing agents and bases.

Fire-Fighting Instructions: Cool fire exposed containers with water spray. Remove containers from fire area if possible. Do not release runoff from fire control methods to sewers or waterways.

Fire-Fighting Equipment: Firefighters should wear positive pressure self-contained breathing apparatus (SCBA) and consider use of unmanned hose holders or monitor nozzles for fighting large fires.

NFPA

Section 6 - Accidental Release Measures

Spill /Leak Procedures: Provide adequate ventilation and wear personal protective equipment. Evacuate personnel as a precaution. Prevent product spill from entering sewers, streams or drinking water supplies. Collect liquid or soak up with inert filler or an absorbent, such as dry earth, sand or oil absorbent (sweeping) compound. Material will float on water. May be covered with foam or water fog if danger of ignition exists. Collect material into suitable containers for disposal. Wash area with dilute ammonia solution.

Containment: For large spills, dike ahead of liquid spill for later neutralization, absorption, clean up and disposal.

Section 7 - Handling and Storage

Handling Precautions: Avoid contact with eyes, skin and clothing. Avoid breathing vapor over open container.

Storage Requirements: Store in a cool, dry place away from excessive heat in original or similar waterproof containers. Avoid unnecessary contact. Protect from freezing. Do not store near heat or open flames. Containers should be tightly sealed to prevent contamination with foreign materials.

Shelf life: 12 months from date of shipment under manufacturers recommended storage conditions.

Section 8 - Exposure Controls / Personal Protection

Eye Protection Requirements: Safety goggles or glasses are recommended. Plastic face shield should be worn for complete face protection.

Skin Protection Requirements: Impermeable gloves should be worn. Employees should wash their hands and face before eating, drinking or using tobacco products.

Ventilation/Respiratory Requirements: Exhaust ventilation recommended. An organic vapor cartridge or fresh air supplied respirator (NIOSH certified) may be necessary for certain applications. Consider the type of application, environmental concentrations, and other materials being used concurrently when determining respirator use and selection. Observe OSHA regulations for respirator use (29 CFR 1910.134).

Additional Protective Measures: Safety showers and eye wash stations should be easily accessible to the work area. Training is important. Follow all label precautions.

Section 9 - Physical and Chemical Properties

Physical State: Viscous liquid

Appearance and Odor: Amber; Slight aromatic

Vapor Pressure: Not established

Specific Gravity (H₂O=1): 1.20

pH: N/A

Water Solubility: Negligible

Boiling Point: >392°F (>200°C)

% Volatile: Negligible

V.O.C. (ref EPA meth 24): None

Section 10 - Stability and Reactivity

Stability: Stable at room temperature in closed containers under normal storage and handling conditions.

Hazardous Polymerization: Will autopolymerize at very high temperatures.

Chemical Incompatibilities/Conditions to Avoid: Strong oxidizing agents, acids and bases, and amines/excessive heat.

Hazardous Decomposition Products: Fumes, carbon dioxide, carbon monoxide, acrid smoke, phenolics and aldehydes.

Section 11- Toxicological Information

LD₅₀ ORAL: 4,000 mg/kg (rat)

Possible skin irritant and sensitizer

Section 12 - Ecological Information

No Ecological Information Available

Section 13 - Disposal Considerations

Waste Disposal Method: Dispose of in compliance with federal, state or local environmental control regulations. Not a hazardous waste under RCRA (40CFR261).

Section 14 - Transport Information

DOT
Not regulated

IATA/ICAO
Not regulated

IMO/IMDG
Not regulated

Section 15 - Regulatory Information

U.S. Federal Regulations:

OSHA:

This document has been prepared in accordance with the MSDS requirements of the OSHA Hazard Communication Standard.

SARA TITLE III:

Sections 311/312 Hazard Classification:

None

Section 313: This product contains the following substances subject to the reporting requirements of EPCRA, Section 313 and 40 CFR Part 372:

None

TSCA: This product or its components are listed in or exempt from the TSCA inventory requirements.

This product contains the following substances subject to export notification under Section 12 (b) of TSCA:

None

WHMIS:

D2B

Section 16 - Other Information

Reason for Issue: Revised to ANSI format

Prepared By: S.F. Marks

Approval Date: 02/24/2003

Supersedes Date: 12/01/1994
